We are moving along with our 200<sup>th</sup> Anniversary Year Celebrations and boy has it been busy from the beginning. A great time and many memories were shared at our reconsacration. Great to see so many of the faces I have not seen for so long. The Grand Line came to town and really liked our lodge, the building committee had it all spruced up and made us proud. We celebrated our 200 years with proclamations from the State Senate and House, and the Mayor of Canton sent best wishes as well. It was one of those things we will remember and be very glad to say we were there to see it.

On to the “200<sup>th</sup> Year Picnic” at Craftsmen Park with great food, boat rides, “corn-whole” game and many other things for grownups and children to entertain themselves. The lake is so beautiful and the park is the best Masonic Park in the whole nation. What a day for the whole family.

If you have not herd already, if you come to lodge and fill out a form with the sectary he will get you your very own name badge so no more remembering your own or anyone else’s name. When you return to pick

Greetings, my brethren! I’m not sure if I have ever been as happy to see summer as I am this year. We have all persevered through unbelievable circumstances. I know that I am not alone in feeling that, without the brotherhood of William McKinley Lodge and the rest of the Masonic world, things would have been considerably more difficult.

All previous Worshipful Masters told me how incredibly quickly my year in the East would be. They vastly undersold that point! We have done so much, enjoyed a great and successful inspection, worked with new candidates and did everything possible to Make Freemasonry Real; but we still have more to come. As you can see from the Trestle Board, we will have a busy summer. In June we have two Stated Meetings, including a visitation from our District Education Officer, and also our famous Hawaiian Shirt

Hello Brethren! June is upon us and Trinity has been very busy. We conferred two Entered Apprentice Degrees and one Fellow Craft Degree last month. The new candidates were given very good degree work and I would like to thank everyone for moving up a station in the Fellow Craft Degree. For your first time in those seats, you were spot on and next years inspection should be a top notch performance. Job well done!

Night out with the ladies at Michael D’s was a real success. The Staff was excellent and the food was great. Thank you Worshipful Brother Larry Haines for setting it up!

Happy Father’s Day to all you great Fathers out there. Spend some quality time with your loved ones and cherish as many moments as possible.

While celebrating our independence, please be safe and use good judgment. Have a happy and safe 4<sup>th</sup> Brethren. See you all in the fall.

In closing: “Success is not final; failure is not fatal; it is the courage to continue that counts.”

Greetings Companions! It's amazing how fast this year has gone. A year ago, most of us were bunkered in our homes, working remotely and pretty much all of us were praying for an end to the restrictions brought on by COVID-19. Hopefully recent events have permanently brought that end to the restrictions.

Since things have eased up, we've been working hard to catch up in Capitular Masonry so everything can be done to have a more successful year. A sincere "Thank you" is due to those Companions who have gone above and beyond to make this year some semblance of normality. There are too many to list here.

June 15<sup>th</sup> is our Installation of Officers. It is the full intention as of the writing of this article to present several "Service Awards" to companions who have been with us for many years. It'd mean so much to the incoming officers as well as the award recipients if as many companions could attend as possible. Friendly faces on the sidelines mean so much in Masonry, so please attend and support these companions as ours is a fraternity which teaches among many things brotherly love.

Much work has been done, but there is still much to achieve. Under the next High Priest's leadership, I'm certain this will happen. I urge all companions to work on the code courses during the summer break, as well as attend both the

Also that night we will have a pie and cake auction; the proceeds will go to the Grand Illustrious Masters fund.

Sir Knights: Right Eminent Grand Commander, SK Starr, has moved to the 2nd stage of his recovery program for us. The key to it working is our using good common sense. Our vulnerable people in mind we need to be an asset to the 2nd stage efforts. Remember it takes all of us to make it work.

I was impressed with our inspector, Very Eminent SK Edmonson. My thanks to our recorder and treasurer for the paperwork being in order and all Knights who helped. Next year we should be back to normal.

## The Cowan and the Eavesdropper!

These two words are heard at the opening and closing of every Masonic Lodge and are well known by all Brethren; but what is a Cowan or an Eavesdropper; and where did that term come from? Let's start with an Eavesdropper. The term comes from eaves dripping. Buildings with no gutters at roof level drip and leave an indented line on the ground where the water hits. It is believed that the Eavesdropper stood inside that ground mark close enough to the building to hear conversation inside. In older lodges the Junior and Senior Deacons would probe with their staffs into the darker parts of the beamed rafters to rout out hidden Eavesdroppers. Henry VIII had figures carved into the beams of the palace to remind his subjects that all conversations between them, either pro or con, would always get back to the ear of the king. Now the Cowan is known as a lazy uninstructed stone mason belonging to no Masonic Lodge and posing as a Mason having no knowledge of a real Masonic Craftsman. He is described as a stupid man who would pile field stone on top of each other without the use of motor. Today he would be known as a "scab" or non-union worker. Usually Cowan's were Eavesdroppers and were scorned. If known, they were not employed as Fellow Craftsman and not allowed near the building sight unless, in a necessity and than, at menial jobs. These terms are believed to be Scottish in nature. It is also interesting to note, regarding motor, that King Solomon's Temple was constructed without the use of motor. "The parts fitted with such exactness that it appeared as if the handy work of the Supreme Architect of the Universe rather that of human hands."
